# ULTRA MAX®

Model	2600mAh power bank	
Indicator	Charging indicator, discharge indicator	
Protection	Over-current protect, over charge protect, over-load protect, short-circuit protect	
Detection	Over-load detection, current detection, power detection	
Charging mode	continuous current, continuous voltage control	
Input	Micro USB	
Output	Single USB	
input Voltage	5V ± 5%	
Input current	500mA	
Non-load voltage	5.2V ± 2%	
load voltage	5V ± 5%	
output current	USB: 1A	
output power	5W	
Quiescent current	≤ 30uA	
battery capacity	2600mAh	
charging time	5hrs	
cycles	> 500	
Over charge protect	4.2V	
over current protect	1.2A	
Under voltage protect	3.1V-3.2V	
Blue	Red	Red indicator refer to on charging, fully charger lit, blue indicator refer to discharge
Discharge indicator	charge indicator	
USB output: DC5V 1A		
Short circuit active: to charge it		
Measurements
